

**Rainier Valley Corps**

Rainier Valley Corps promotes social justice by cultivating leaders of color, strengthening organizations led by communities of color, and fostering collaboration between diverse communities.

Rainier Valley Corps is striving to build substantial new capacity among frontline organizations serving immigrants, refugees, and other communities of color throughout Seattle and King County.

## **Community Alliance**

Our Community Alliance, launched in 2017, builds the capacity and amplifies the voice of communities of color. By becoming a partner of the Alliance, our partners gain access to the following services:

### **Advocacy and Collaboration**

We create opportunities for communities-of-color-led nonprofits and communities to share resources, discuss lessons learned, build strategic collaborations, and work together to address systemic inequity.

### **Fellowship**

We train diverse emerging leaders and place them at grassroots organizations led by communities of color. This deepens the bench of leadership of color while increasing the capacity of local community-based organizations.

### **Coaching**

The quality of organizational leadership is a core indicator of the organization's ability to be effective in achieving its mission. We provide specialized capacity-building coaching to executive directors and leaders at all levels within the organization.

### **Operations Support**

We centralize operations support, strategically providing operations staffing to our partners so that they get the small amounts of highly-skilled labor an organization their size needs-and that they receive it in timely, financially viable, and culturally responsive manner.
